

# Supply Chain Management

Akzo Nobel supply Bellway with decorative coatings. Operations at its Darwen site in Lancashire have become significantly more water-efficient with the investment in a new effluent plant that saves 54 million litres annually, a reduction of over 75%.

Caradon Plumbing Ltd provide Bellway with Ideal boilers. Its environmental effect is reduced through the use of scrap aluminium and cast-iron in the manufacturing process and at the end of life, 95% of the components (aluminium recuperator, cast-iron heat exchangers, copper pipes) are recyclable.
