

# Broughton Milton Keynes

In partnership with the Guinness Trust, Bellway was selected by the Housing Partnership as the preferred developer for a parcel of land at the edge of Milton Keynes. Broughton is a new 234 home community providing a mix of tenures and affordable housing.

All the homes achieve EcoHomes excellent rating and incorporate gas condensing boilers, low energy lighting, drying space, rainwater harvesting, tap flow regulators and cycle storage and waste recycling facilities. The site is positioned close to schools, shops and a medical centre, childrens play area and community centre, and the developments proximity to local cycle paths provides and encourages people to cycle rather than drive.
