

Butts Green, Warrington

Located outside the growing town of Warrington and within 200 yards of junction 8 of the M62 Motorway, lies the new community of Butts Green. Formerly part of the historic Burtonwood Air Force base, a detailed design brief has produced a mediaeval hamlet of terraced cottages, villas, apartments and town houses. The development with its strong architecture, dominant terracotta colour, formal open spaces and well-detailed construction is dramatically different from everyday suburban developments.
